College of Science, Engineering & Technology Presidential Distinguished Professor
Director, NIH-RCMI Center for Environmental Health Director, DoD-Center of Excellence in STEM
Education
1400 Lynch Street, Box 18750 Jackson State University

Dear Dr. Tchounwou,

On behalf of Visit Jackson, it is my pleasure to welcome you and delegates of the 13th International Symposium on Recent Advances in Environmental Health Research to our capital city, Jackson, Mississippi.

We are excited to have attendees representing the academic and environmental health industry meeting in Jackson. Congratulations on your continued commitment to service to global research in the field of environmental science, biomedical Science and public health. It is my wish that Jackson, Mississippi provides the optimum destination for your attendees as they network with colleagues and share valuable industry trends and techniques.

I urge your delegates to take full advantage of the many attributes of Mississippi's Capital City; our unique attractions offer hours of educational enrichment; the many historical museums showcasing our own Mississippi story and let's not forget the music culture abundant in a variety of interesting venues located around the city.

If there is anything that I or my staff can do to enhance your stay in Jackson, Mississippi, please don't hesitate to give us a call. Again, congratulations and Welcome to Jackson, Mississippi "City with Soul".

Sincerely,

Wanda C. Wilson
President/CEO
